**WORK PLAN APPROVAL - 2010 GROUNDWATER MONITORING SCHEDULE, BOEING CORPORATE REAL ESTATE, FORMER C-6 FACILITY, 19503 SOUTH NORMANDIE AVENUE, LOS ANGELES (SCP NO. 410; SITE ID NO. 1846000)**

Dear Ms. Wiley:

We have received the "2010 Groundwater Monitoring Work Plan, Boeing Former C-6 Facility, 19503 South Normandie Avenue, Los Angeles, California", (Work Plan) dated February 15, 2010, prepared by AVOCET Environmental and your letter dated February 17, 2010, summarizing the changes from 2009 to 2010 in the groundwater monitoring work plan. Groundwater beneath the former facility contains various volatile organic compounds exceeding their respective California Drinking Water Maximum Contaminant Levels (MCLs) and Water Quality Control Plan (Basin Plan) objectives. Boeing proposes to conduct a site wide annual monitoring event in March 2010, and a plume boundary specific, semi-annual monitoring event in September 2010.

The Work Plan presents the rational and procedures for the proposed facility-wide groundwater monitoring program for 2010. The groundwater monitoring program proposed is in addition to the required monitoring being completed under the individual waste discharge requirements (IWDR) monitoring and reporting program implemented at the site. We have reviewed the Work Plan and approve its implementation. Please submit semi-annual reports presenting the results of the 2009 groundwater monitoring program by **May 31, 2010** and **November 30, 2010**.

If you have any questions please call me at (213) 576-6738 or email at [atownsend@waterboards.ca.gov](mailto:atownsend@waterboards.ca.gov).

Sincerely,

Ana M. Townsend  
Water Resources Control Engineer  
Site Cleanup I Unit
